CITIZEN PARTICIPATION

Riley Road Resident Darlene Walker spoke about the new water rate she is paying living outside the Village limits and asked the Village to make it fair for all outside users. Mayor Crosby then asked if anyone else had a question, a question was asked where the left over money is going and Officer Ramey responded that the money goes into the appropriate fund which pays the bills and salary. Another resident responded that she wants to know why Council is not doing anything for the outside residents. Council President Rospert reminded that at the last Council meeting it was clearly noted that Council will re-evaluated the township situation, but since this has been since 1989 no action would take place at tonight’s meeting until Council has had time to look into it and have a new rate study done. Councilperson Bickley stated that Council said the minimum of two (2) thousand gallons would be put back to the three (3) thousand gallon minimum in which they have done and that Council will look into the township rates at the end of the year, beginning of next year once figures are in and the rate study is done. Discussion continued with residents speaking out of turn and over each other so the discussion was ended with the Mayor moving on with the meeting.
