---

Dear Residents,

The Village of Milan is pleased to introduce to our utility customers a new communication tool that will allow us to quickly send emergency or informational messages to our residents. The use of One Call Now (this is the same communication tool that Edison Schools use) notification service will help us keep you informed.

Each resident can have up to six phone numbers per household. This will allow for messages to be sent to home phones, work phones, cell phones, ect. If you would like to receive a text message to your mobile device text number 22300 and put ALERT in the message bar. (Message and Data rates may apply).

Please complete the attached form to sign up for this service or to opt out. You may either drop the form off at the Utility Office or in the drop box.

Sincerely,

Brian Rospert  
Village of Milan Administrator
