NEW BUSINESS

John Courtney was in to discuss the Electric Rate Review and stated the following “Earlier this year, the Village retained Courtney & Associates, a public utility consulting firm located in Findlay, Ohio, to prepare a review of the Village’s electric rates. Based on the results of that review it appears that, with exception of the periodic adjustment for increases and decreases in the Village’s power supply costs, which are recovered through the Power Supply Cost Adjustment, and barring any unforeseen circumstances, the Village’s electric rates should not need to be increased over the next four years. The Village’s staff works hard to provide safe, reliable service to the Village’s electric customers at the lowest possible cost. As a result of their efforts, the Village is able to maintain stable electric rates for its customers for the foreseeable future.”
